

Wake Up To A New Smile

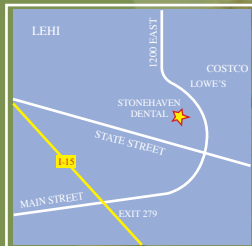

We love Stonehaven Dental because they are able to care for all of our family's needs. They can do our wisdom teeth, implants, root canals, bridges — everything for the whole family at one location. Our dentist also offers orthodontics, so when my kids need braces we can visit our same family dentist in the same office. We have been impressed with their level of service. The whole staff is very polite and professional. Same-day service has been a huge plus. When Sara chipped her front tooth, she was able to get it fixed that day to avoid pain and embarrassment at school. And I enjoy the SEDATION dentistry. When I had my cosmetic crowns placed, I was able to be comfortably sedated through the whole thing. Never again will I need to go through the pain and nervousness!

Thank you, Dr. Tobler.

-Daniel Marshall
